

Please do not change the no call list. My name is on it for a reason. Answering calls from telemarketers is a complete waste of both parties' time. I do not want their products (if I did, I would call them myself) and they do not want me to hang up on them or get very frustrated with them for interrupting something more important, like time with my family. People of Indiana lead very busy lives, I do not have time to run to the phone every 5 minutes to answer a pointless call, nor do I want to hear it ring if I choose not to answer it because I know it is a telmarketer. I was very proud of Indiana as a state when we chose to enact the No Call List because it is what Indiana residents WANTED, actually, it is what they NEEDED. Time is precious, please don't waste mine or yours by changing the No Call List.
